

Technical Memo No. 113**00-039M Plunger Lock for Frameless Sliding Window – 260 System****Stylish New Lock Option**

A new high quality, stylish keyed plunger lock (00-039M) is now available for the popular Lidco Frameless Sliding Window (260 System).

This new lock is reliable, secure and easy to use. It's compact size and slim profile makes it suitable for a range of internal locking applications. The lock has a full metal construction for enhanced strength and durability.

The lock body features concealed fixing with no visible screws for a stylish appearance and added security.

The lock is available in black (00-039MBL) and satin chrome (00-039MSC).
