

Technical Memo No. 117

Architectural Mortice Lock Option for 370 and 372 Systems

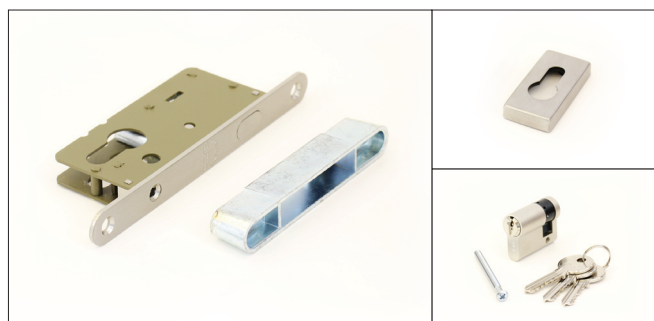

Stylish Mortice Lock for the DuoTherm™ Sliding/Stacking Door and Sliding/Stacking Window

Introducing the new architectural mortice lock option suitable for use with the DuoTherm™ Sliding/Stacking Door – 370 System and Sliding/Stacking Window – 372 System. The mortice lock is backset 30mm and is suitable for use with the 75mm wide stile (370-147).

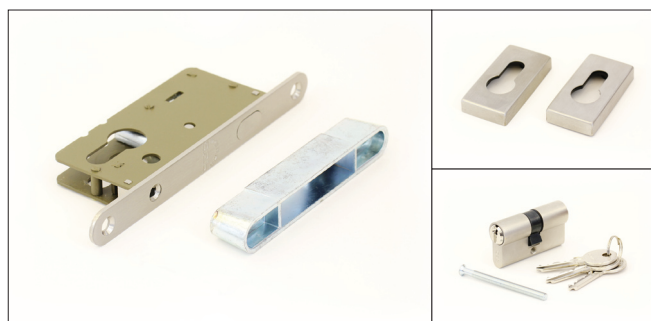

There are four cylinder options available, the keyed single cylinder (00-002), keyed double cylinder (00-003), turn button single cylinder (00-004), and turn button/keyed double cylinder (00-005).

The mortice lock is available with a surface finish in satin stainless steel. The lock is made in Italy to the highest quality levels.

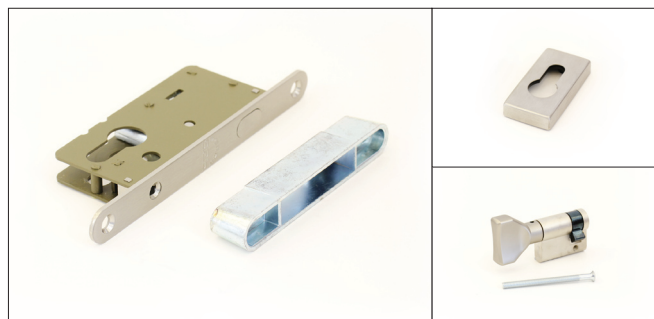

The mortice lock is in stock and available now.

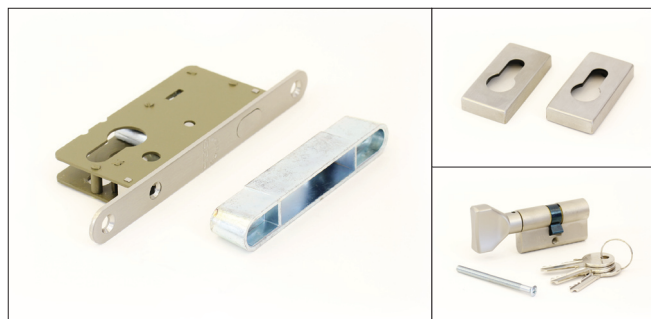

Keyed Single Cylinder Lockset – 00-002
